Stigma /noun/ Feelings of disapproval about particular conditions, illnesses, or ways of behaving.

It's time to help your community #BreakTheStigma that surrounds mental health. Review the sample GREAT Goal Quick-Start Guides and choose one project that your team will carry out for Mental Health Awareness Month. Use these pages to create your action map to team success.

Key Results measure the progress you're making toward your goal. They're like mile markers along the highway - they tell you how close you are to your destination.

To be effective, Key Results must be measurable and have a deadline. In other words, they must describe exactly what success looks like and give an exact date that they will be complete. Using the boxes below, create 6 Key Results that must be accomplished for your team to be successful. Do your best to put them in order from "must finish first" to "must finish last."
